- Contact the school(s) you are interested in to find out if they accept AP credits
- If a school accepts AP credits, they will usually require additional courses taken in that subject area

GPA Calculation

- AP credits are **NOT** computed into your GPA
- Dual-enrollment and transfer courses **DO** count toward your GPA for admission.
- Repeated courses taken at the same school will be marked as repeated under special classification. The final attempt will have full credit value and will be included in the GPA calculations. All prior attempts will have a credit value of 0.0 and will not be included in the GPA, although the course and grade will be listed in the coursework.
