Requirements for Physician Assistant Studies Programs

Choosing a Major:

- See a Pre Health Advisor at least once per semester.
Pre-Physician Assistant students MUST choose a major (Pre-Physician Assistant is NOT a major).
Commonly chosen majors include biology, chemistry, biochemistry and psychology.
However, any major is acceptable, so long as students complete the pre-health requirements.

Qualities of Physician Assistant School Applicants:

- A high GPA in science and non-science courses- a competitive GPA is above a 3.5.
Competitive GRE scores (above 152)
Active in medical volunteer/work experience/extracurricular events.
Has significant clinical experience – shadowing & volunteer work is essential. Hands-on experience is required for many programs.
You should be well known by your professors who will write great Letters of Recommendation and evaluations.

Common Pre-requisites for Admission to PA Schools:

Biology
BSC 2010, 2010L (General Biology I & Lab)

General Chemistry
CHM 1045, 1045L (General Chemistry I & Lab)
CHM 1046, 1046L (General Chemistry II & Lab)

Organic Chemistry
CHM 2210, 2210L (Organic Chemistry I & Lab)
CHM 2211, 2211L (Organic Chemistry II & Lab)

Mathematics (6 credit hours, one must include statistics)
1. MAC 1114 (Trigonometry) OR MAC1147 (Trig. & Pre-Calculus) OR MAC 2233 (Business Calculus) OR MAC 2311 (Calculus I)
2. STA 2023 (Statistics for Business and Economics) OR STA 2122 (Introduction to Statistics) OR STA 3111 (Statistics I)

Pre-PA Students Must Also Take:
PCB 3063 (Genetics)
MCB 3020, 3020L (General Microbiology & Lab)
PCB 3702, 3702L (Intermediate Human Physiology & Lab)
ZOO 3731, 3731L (Human Anatomy & Lab)
HSC 3537 (Medical Terminology)

* All science prerequisite lecture courses must have been completed no more than seven years prior to matriculation

Requirements for physician assistant programs may **vary** (i.e., math courses, social sciences). Students should consult specific websites for information on requirements for desired schools.

AP Credits

- Not all professional schools will accept AP credit for science courses (for a list, ask a pre-health advisor)
- Contact the school(s) you are interested in to find out if they accept AP credits
- If a school accepts AP credits, they will usually require additional courses taken in that subject area

GPA Calculation

- CASPA will calculate a science GPA and a non-science GPA.
- AP credits are **NOT** computed into your GPA.
- ALL post-secondary coursework will be used to compute your GPA for admission.
 - ✓ Dual-enrollment and transfer courses **DO** count toward your GPA for admission.
- CASPA **DOES NOT** use “forgiveness” policies in calculating your GPA.
- DR grades do not count in your GPA. However, avoid DR grades. Professional schools expect students to carry a consistent, full-time course load (15-18 credits)

Application Cycle

- The application cycle opens mid-April and runs through March of the following year (application due date may be earlier than March and varies by program).
- Students are strongly encouraged to **APPLY EARLY!**

Professional Experience

- Experience may involve physician/patient observation (typically students have >120 hours)
- Many programs require hands-on patient contact. Examples of this include taking vitals, drawing blood, providing personal hygiene care, working as a radiology technician, working as a nurse or EMT.
- Students must demonstrate a knowledge of their chosen profession when applying to professional school
 - **NOTE:** Many otherwise well-qualified applicants are not accepted because they lack sufficient experience and or knowledge of their chosen profession

****Academic Advising****

All lower-division, Pre-Health students must see an advisor in their Major Department in addition to an advisor in the Office of Pre-Health Professions Advising prior to registration each semester!
